Back in the Studio — Back on the Air

Tuesday, September 16, 2008

We are thankful to be back on the air from our studio in Louisville for live broadcast of *The Albert Mohler Program* today. Electrical power has been restored in our part of Louisville, where a dramatic storm caused a blackout of electrical power for over 300,000 homes and businesses on Sunday.

Thanks for your interest — and thanks for listening. Streaming audio for today is available at www.wfia-fm.com while we get our servers back on line. The audio archive of yesterday's edition is available [here](#).

UPDATE: We are just now live for audio streaming! Just go [here](#). Thanks for your patience.
